AISSMS COP a place inculcating values of strong fundamental knowledge with hands-on experience in their students.

The teaching faculty helps you develop a strong understanding of the subject and also helps you leverage the available world-class infrastructure and amenities in the labs. Our laboratories are well equipped with all the instruments, techniques and the best support staff to help students understand all the practical knowledge. Whatever journey I have paved for myself through Sales, Marketing, Forecasting, Consulting and now Professional Development and Coaching wouldn't have been possible without the strong base that all my mentors laid for me at this college. I value all my core learnings inculcated here.
