Hon. Secretary's Message:

It is with great pleasure that I convey my New Year greetings to all our alumni. Through this bulletin I wish to praise the work of APGA team who are making a difference by positively impacting their communities in a variety of ways. There are many exciting developments at your alma mater that are included in this bulletin, giving you even more reasons to show pride.

Staying connected through experiences at All India Shri Shivaji Memorial Society's College of Pharmacy is a simple but powerful bond, and provides the opportunity to reflect on our time at this institute and the rich tradition and growing community that make our alma mater unique. We all have special memories of AISSMS, including the bonds we made with roommates, friends, and professors, as well as the classes and experiences that touched our lives. There is no better way to keep those memories and that meaning alive than actively being a part of the Alumni Association. I encourage you to connect with each other, give back to the institute and current students and enable them to take advantage of the experience you have gained. My best wishes in all your endeavours.

Shri Malojiraje Chhatrapati
Hon. Secretary, AISSMS

From Principal's Desk:

AISSMS College of pharmacy is one of the premier Institutes that stands on the pedestal of dynamic and cooperative management, sincere and dedicated staff & students.

As a pioneer member of this institute I have observed the growth of this college from an upcoming institute to a renowned one which is not possible without the unconditional support and continuous encouragement of management.

Our alumni organization i.e., APGA is registered with the charity commissioner and functions with the aim of bringing the current students & alumni together. This has created an interface for exchange of various ideas, knowledge & opportunities for our current students over a period of time.

Most of our alumnus holds key position of influence & I would appreciate to see that they use their influence to direct the development of our society positively.

APGA carries out various events for past & present students & also works for social cause. The value addition to these events is the publication of the bulletin which gives the updates made by APGA fellow mates. This new venture is a major milestone for the success & rapid development of an institute.

I give my best wishes to all the future activities of APGA.

Dr. Ashwini R. Madgulkar
Principal AISSMS College of Pharmacy

Advisor's Message

An organization ***“by the students - for the students and most importantly in the interest of students”*** is how I would describe the APGA. A students committee that was started by the students about 11 years ago, this organization has the aim of connecting the Alumni of the college with the present students and also helps the needy. For the past decade, the APGA members have been successfully undertaking various tasks by **serving as a bridge to connect to the alumni to establish a relation of trust** amongst the students, teachers and the alumni of the college. Today APGA stands tall only because of the constant efforts put in by the Students, all my fellow colleagues from teaching and non-teaching fraternity, respected Principal and management of college and the overwhelming response of the Alumni.

Since I have taken over as Advisor, it has been my constant endeavor to encourage and motivate the students and the alumni interactions, so that it proves beneficial to the for the professional, personal and overall development of the current students and also it helps the alumni stay connected to the college.

Over the past year, many events such as blood donation camp, guest lectures by alumni, visits and donation to orphanages etc have been conducted extensively and I take pleasure to appreciate the efforts of our working committee of APGA, and alumni have helped the committee see such success and achievement which has never been witnessed before.

While making this bulletin, we have kept in mind the main objective that majority of the alumni are updated with the various activities that are being done in college for the benefit of the students and also a section specifically designed for the alumni which contains the profiles of the alumni. This has been done so that all of us get to know where and to what heights of professional success our alumni have reached!

The Alumni meet of this year will be different from the ones the alumni have witnessed earlier. More emphasis will be laid this year on the interaction of the students and the alumni. I hope that the committee and the alumni keep growing steadily and pray for your bright future.

Thank you.

Dr. Shashikant V. Bhandari
(Advisor, APGA)

Staff Editor's Message

This bulletin has been designed keeping in mind two things; one is connecting to the Alumni and second is informing the Alumni about the various activities that are conducted in the college.

This bulletin will serve as platform for the Alumni to gain insight about the various happenings in their Alma Mater and also provide their valuable help in the constant efforts of the college towards student welfare.

This Bulletin also contains a section on the Profiles of various Alumni. This will serve the purposes of enlightening the students of the various opportunities they have when they pass out of the college and also it will help the alumni get information about their colleagues. I hope the aims of this Bulletin are achieved and hope for more participation of the Alumni for the future editions if the Bulletin.

Thank you.

Dr. Sachin Tembhurne
(Staff Editor, APGA 2015-16)

APGA President's Message

It has been an immense pleasure and pride to serve my college as the president of APGA. I hope my leadership skills have enhanced the bond between our beloved alumni and the college through APGA, to stay connected with their Alma Mater. I'd take this opportunity to thank the relentlessly working committee of APGA.

We have included a brief synopsis of the kind of work APGA is involved in i.e; social and educational activities in this bulletin. Its been an honor to have worked with such hardworking people under the companionship of our alumni. With every increasing year the contributions from our team has helped us rise to this position of esteem today. We hope that this bulletin will help our students network better with the alumni and will help explore new horizons.

Having said that I urge the alumni to stay connected with us either through mail or networking sites and keep sharing their inputs wherever they are for the betterment of our institute.

Mr. Urvish Khandelwal

ALUMNI MESSAGES

1. Mrs. RESHMA N. MIRAJKAR

Empowerment of students for their all round development of knowledge, skills, building character and improving employability through education is the motto of our college. Mentoring by core expertise professors and Principal, Measures initiated by the Hon. Management, steps taken by the college administration, the willing contribution of the teaching and non-teaching staff and enthusiastic participation of students in the college activates in the recent past all vouch for this. Good grades are a stepping stones towards getting into a good college, getting a good job and eventually living a good life. Succeeding in life is as simple as being a good student. All you have to do is pay attention, work hard and give it your best shot. Being a good student throughout school and college is like preparing yourself for a marathon which will begin after you graduate. Focus on your goals and study hard, because the last thing you want is to tire yourself out before the finish line. Don't study to earn, study to learn. What you learn today is what you will become tomorrow.

2. Ms. GEETANJALI BHAVE

Believe in yourself and the basics that you have learnt; be open to new experiences and accept challenges, nothing is so bad in life which you can't face by putting up a nice smile and "Can Do It" attitude.

3. Mr. NITIN KADAM

: I believe in my own words..."Maturity comes with experience and that comes with Exposure" (Ref: Nitin's Word Creations). Maturity needs experience but obviously its not only in the number of years, experience can be judged on the degree of exposure to the knowledge space. Identify yourself, decide where to go, find out all possible ways, never reject an opportunity because only opportunity can give you your best way to reach at your target. Always think out of the box. Always follow this... "Think Big, Start Small, Scale Fast". Be proactive and self dependent in all respect. Treat every achievement as a 'refreshment stop' in the journey of life. Life, success etc is not all about money, name and fame, its all about your "Own contribution". Find within, what you have.. and explore that... You will be of all and Life will be of yours...

All the best.

Please feel free to contact for anything which I can contribute.

Thank You.

4. Ms. RASHMI JADHAV

Have faith in yourself assist it with hardwork and above all trust your college and teachers.
